

Lesson 1 Download and Installation

In order to connect to the world of Eureka, it is necessary to download and install the EUREKA WORLD viewer software.

In this tutorial we will explain how to connect using the software mentioned above.

The software can be downloaded from the EurekaWorld website at <https://hello.eurekaworld.co.il/>.

Before starting the download, it is recommended to check the operating system of your computer and then press the corresponding link.

After downloading the software, select the English language (or any other language), and

follow the on-screen instructions.

By completing the installation, the software icon will be added to your desktop and to the start menu.
